**SPANISH
EXCELLENCE
SINCE 2019**

There are three responses to a
piece of design: **yes, no, and wow!**
Wow is the one to aim for modern.

Modern Tile, a primordial element and its various structures become the subject of this new creative project.

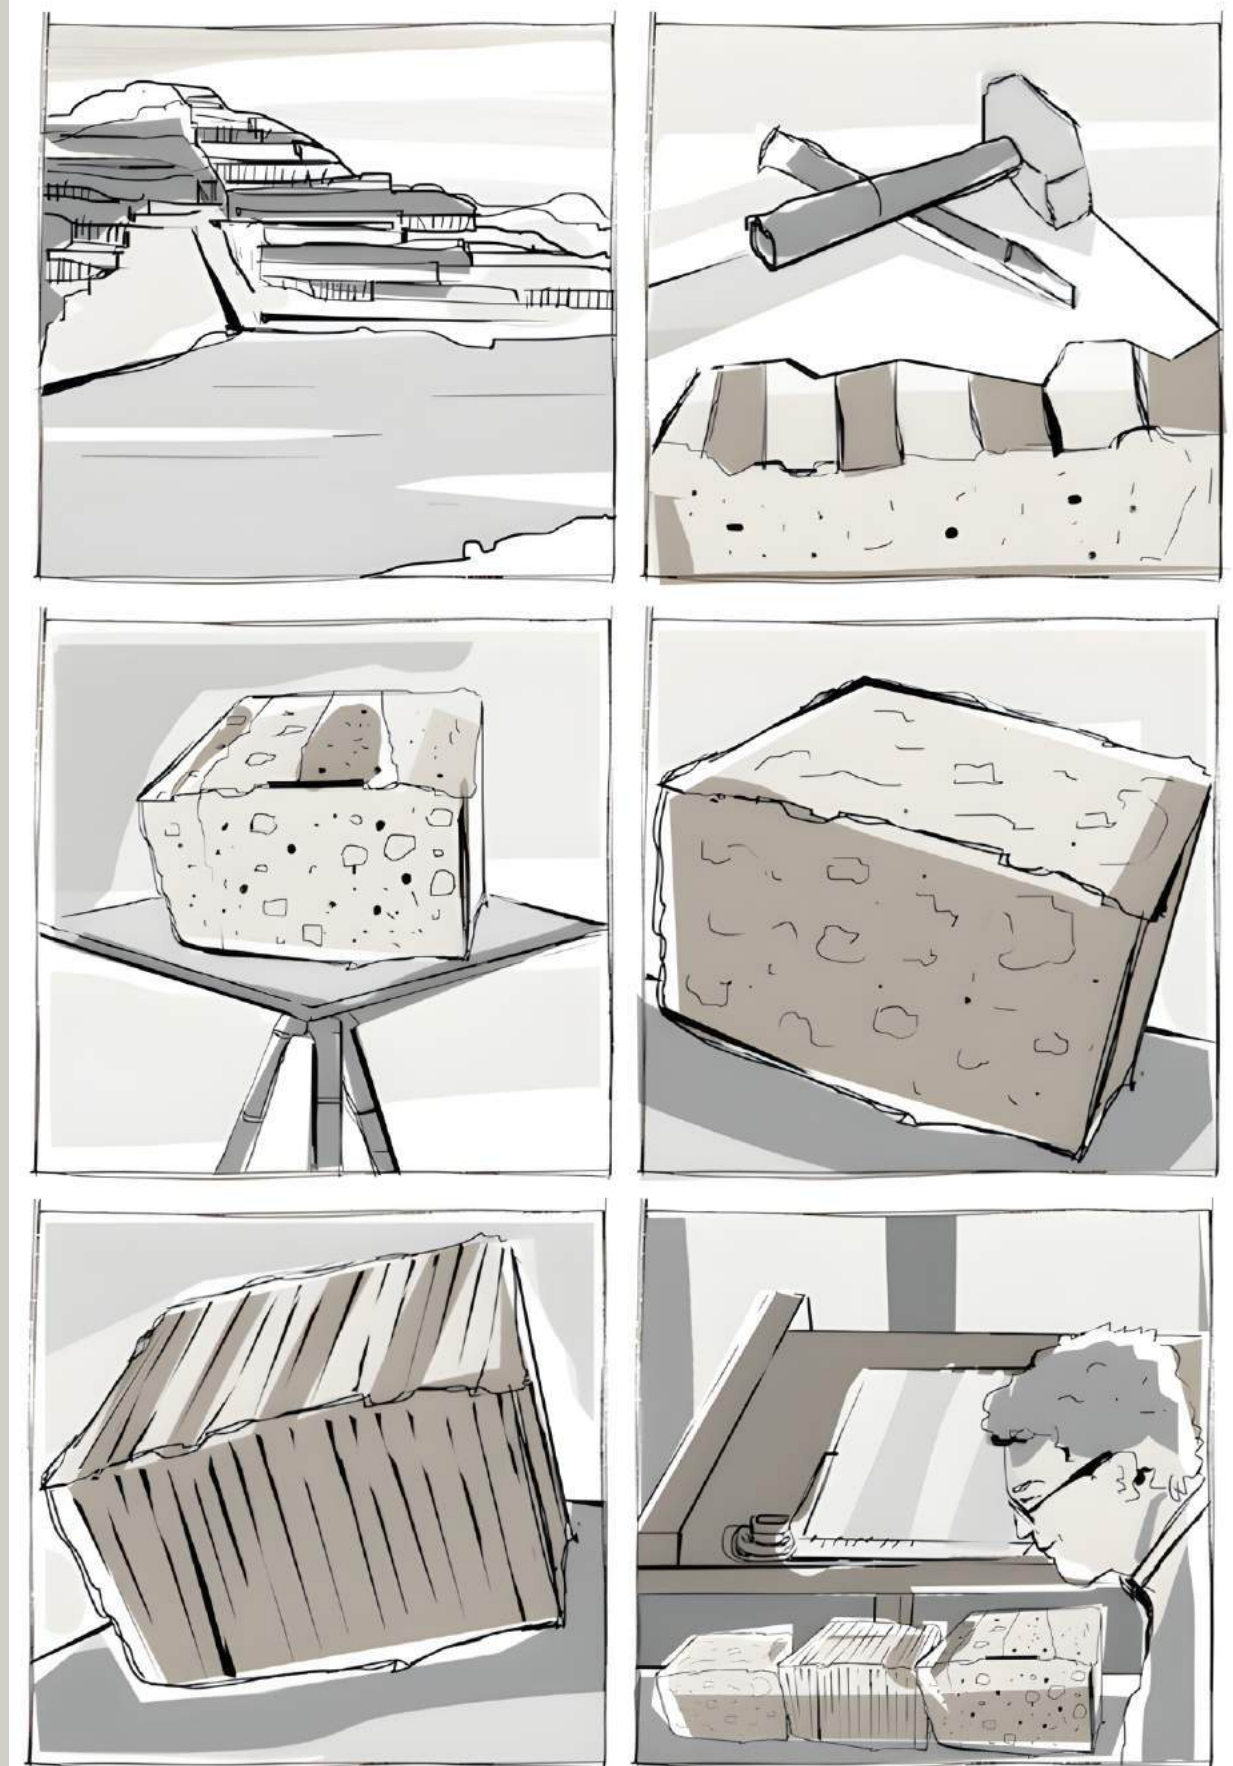

Starting by repurposing the complex simplicity of a stone.

A stone is characterized by a mixture of grains of various sizes, where the random variation of graininess and the change of the shades in tone - given by the different points of its extraction - are its fundamental characteristics.

We are immersed in a study and analysis of different cuts and tones to enhance these natural characteristics, aiming primarily towards architectural design. Along with the natural finish.

BUILDING **AFRICA**

With the enhancement of the development of ceramic industry chain of Uganda and develop Uganda from a ceramic importing country to a ceramic exporting country. Therefore Modern is rewarded the high appraisal of the local government. It has been making great contributions to the local mining, transportation, logistics as well as related fields.
